

Beginning in 1997 Federal Law required Center for Medicare Services (CMS) to certify agencies to bill.

As a company that strives to provide excellent customer service and go above and beyond expectations, we selected Joint Commission on Accreditation of Healthcare Organizations to certify us. The Joint Commission is one of the most recognizable and strictest out of the 10 national accrediting organizations.

Also due to the CMS mandate we are Bonded by a Treasury approved bonder for the sale and billing of DMEPOS products.

We are also a Medicare participating provider meaning we accept Medicare allowable on covered items. With this we do not collect any money at the time of service. After Medicare pays we transfer any remaining balances to secondary and tertiary insurance saving you and the patient time and money.

Clock History

Clock Medical Supply, Inc. was formed in 1981 and today remains a family owned medical distribution company located in Winfield, Kansas just 15 miles from the Oklahoma border. We are strong regional distributor serving market segments in six contiguous states. Those states are Kansas, Oklahoma, Arkansas, Missouri, Iowa, and Nebraska. Each facility will be assigned a Clock Medical Supply Representative to help you with your medical supplies.

The staff of Clock Medical consists of approximately twenty wonderful employees. A true team effort will unfold for you as you interact with the people at Clock's. We just completed a new Medicare multi-insurance billing system installation and launched a top tier interactive website based ordering system. This translated into the finest program and processing service. You should expect premier quality service and that is what we bring to our customers. When you call our (800) number, you get a human voice to answer your questions.

About us...

We are located in the south-central Kansas community of Winfield. Our full-line medical supply warehouse employs about twenty people. The company is family owned and began in 1981. Our distribution facility serves group homes, long term care centers, hospices, home health agencies, and home care patients. We bill Medicare/Medicaid and 65 other insurance companies for you. Clock Medical Supply is one of the very few Medicare/Medicaid Participating Providers of medical supplies. With this we do not collect any money at the time of service. After Medicare pays we transfer any remaining balances to secondary and tertiary insurance saving you the patient time and money. Please contact us with any questions.
