Sky’s The Limit Studio, LLC specializes in art therapy for children with special needs and their families.

“Skylar is near and dear to our hearts. She is a bright, intelligent and funny young lady. She has struggled with social and communication difficulties that have significantly impacted her ability to make friends and form relationships. Over the past three years, she has attended Sky’s The Limit studio for art therapy, and the improvements have been remarkable. The therapists are incredibly skilled and nice people. We can’t say enough good things about Sky’s The Limit! Skylar is much more comfortable interacting with others after coming to Sky’s. She is more open, engaged and confident than we ever imagined possible.”
-- Parent, Overland Park, KS

“Sky’s The Limit Studio has been a God-send to our family. Our son was diagnosed with autism at the age of 2. We tried several other therapies, none of which worked. Then we discovered Sky’s and it was a life changer. The therapists at Sky’s are extremely knowledgeable and skilled in helping children with special needs. My son has improved so much since starting therapy at Sky’s. He is now able to interact with others and is much more confident than he was before. We highly recommend Sky’s The Limit Studio to any family in need of art therapy for children with special needs.”
-- Parent, Lawrence, KS

“Have you heard about…

Nicole Martin, ATR, a registered art therapist living in Lawrence, KS founded Sky’s The Limit in 2007. As the big sister of a brother with autism she is dedicated to improving public awareness of the power of creative arts therapies for children with special needs. STL’s treatment model is a synthesis of her experience working in developmental/behavioral art therapy, applied behavioral analysis, licensed professional counseling, and recreational arts and disabilities programs. She is the author of *Art as an Early Intervention Tool for Children with Autism* (2009) and various articles and received her master’s degree in art therapy from the School of the Art Institute of Chicago and has additional training from the University of Michigan Children’s Hospital. Her website is arttherapyandautism.com.

COMMON ART THERAPY GOALS

- Improve fine motor skills
- Pursue age-appropriate art skills
- Enjoy success with adaptive art tasks
- Use art to improve communication & socialization
- Work on imagination and play skills
- Tap creative potential
- Relieve stress
- Make difficult concepts visual
- Express thoughts and feelings
- Improve tactile avoidance and move past scribbling
- Enhanced quality of life and self-esteem

Creative arts therapies are a fantastic option for kids who are otherwise difficult to engage or struggle to express themselves.

Our sunny, comfy art therapy studio in Lawrence

WHAT ART MATERIALS DO YOU USE?

Painting, printmaking, clay sculpture, puppetry, finger painting, ink drawing, cartooning, murals, bookmaking, etc.............the only limitation is personal safety. (This is how “Sky’s The Limit” got its name.)

NOTES

- Nicole is happy to consult with your child’s treatment team, psychologist, occupational therapist, teacher, etc. with your consent.
- STL cannot accept insurance; if needed, perhaps consider looking into pre-tax savings vehicles and/or inquiring at your local CDDO or relevant charities about possible grant sources.

NOTE TO ORGANIZATIONS

Contact Nicole if you are an organization that would like to discuss collaboration! STL is happy to come to your site and expand your programming options, provide something special for your client families, or pursue grant funding together.

STL has provided programming or training at Children’s Therapy Group (Overland Park, KS), Easter Seals Capper Foundation (Topeka, KS), The Nelson Atkins Museum of Art (Kansas City, MO), Head Start/ECKAN (Ottawa, KS), The Autism Society of the Heartland (Kansas City, MO), and more.
