**-Psychological Evaluation Information-**

The following list is based on a survey submitted by the CDDO to psychologists in Lawrence and the surrounding areas. It includes information on psychologists who provide psychological evaluation, consultation, and/or therapy.

This list does not reflect every psychologist in the Lawrence/Topeka area. Only the results of those who responded to the survey are included. It is our hope that this list will provide a starting point for applicants who might be having difficulties in their search for services of this type. Keep in mind however that this is not a complete list, and there are likely more psychologists in our area who will also provide these services.

Below you will find contact information for psychologists as well as commonly requested determinations:

- Accepts Medicaid for payment
- Offers a sliding fee based on applicant's income
- Licensed to provide a diagnosis (DSM-IV) for eligibility determination
